An academy within:

“Learning together; to be the best we can be”

Pennine View School will, in accordance with Section 175 of the Education Act 2002 and Government Guidance 'Safeguarding Children and Safer Recruitment in Education' 2012, safeguard and promote the welfare of all children and young people at this school.

We recognise that the children and young people within our school are some of the most vulnerable within the country. We all have a duty of care for the wellbeing and welfare of our children and young people.

Pennine View School is mindful of the need to safeguard the wellbeing of all children, young people, staff and visitors to the school and will ensure, as far as is reasonably practicable, that first aid arrangements will be managed in compliance with the management of Health and Safety (First Aid) Regulations 1981. Management of first aid arrangements will be undertaken in such a way as to ensure there are adequate arrangements for training and retraining of first aid staff, provision of first aid equipment and facilities and for the recording of first aid treatment.

The school aims:

- To provide a prompt and appropriate response in cases of illness and injury
- To ensure compliance with all relevant legislation
- To ensure there are sufficient numbers of competent staff within the school environment
- To ensure there are suitable facilities to administer first aid
- To identify and implement reasonably practical arrangements for dealing with first aid incidents
- To keep accident records and report to the HSE as required under the Reporting of Injuries Diseases and Dangerous Occurrences Regulations 1995

Introduction:

The school has a large number of staff both teaching and non-teaching who are trained and qualified as First Aiders. All school staff are provided with training every 2 years. A list of trained staff is available from the school office.

All new staff are given information on where to go for help in the event of an accident as part of their induction into the school. There are first aid notices around the school. This document is only concerned with First Aid and is reviewed every 2 years.

Named first aiders at Pennine View School must hold either a current First Aid at Work certificate, or a Paediatric first aid certificate, to comply with the Health and Safety at Work (First Aid) Regulations, 1981. All teaching staff, Higher Level

Teaching Assistants (HLTAs) and key members of staff, are to complete the Emergency First Aid Training course. Key members of staff are those that have

particular responsibilities in school where first aid cover is needed, such as, accompanying pupils on out of school visits, inclusion links or work experience.

Obtaining medical assistance:

In the first instance all requests for assistance should be directed to a nominated First Aider or the School Reception who will locate a first aider. If it is appropriate and there is a First Aider in the medical room then a child can be taken directly depending upon the type of injury. A first aider will assess the situation and provide first aid care. If the injury requires further medical attention the first aider will make this decision. A Senior Leader must be made aware if a child, young person, staff or visitor requires further medical attention and help to organise this. If an ambulance is required the school's Ambulance Call Procedure must be followed (Appendix 1).

In all cases of hospitalisation one or both parents will be contacted and requested to go directly to the hospital where they will be met by a member of the school staff. The nearest hospital to the School is Doncaster Royal Infirmary, Thorne Road, Doncaster, DN2 5LT where there is an Accident & Emergency Unit. There is also a minor injuries unit at Montagu Hospital contact number 01709 649157. Health Professionals are responsible for any decisions on medical treatment when parents are not available.

The school will always contact parents and carers if a pupil suffers anything more than a trivial injury, however, a first aid slip will be sent home informing parents and carers of any accident, injury and treatment given. If a child or young person becomes unwell, or if the school has any worries or concerns about their health or has suffered a head injury then parents and carers will be informed. Once the incident is over, the relevant paperwork, i.e. accident form, should be completed and any necessary follow up action should be taken. It is a statutory requirement under the Reporting of Injuries, Diseases and Dangerous Occurrence Regulations 1995 (RIDDOR) that some accidents must be reported.

Resources:

Location of first aid kits:

First aid kits are available in the medical room and are placed around school in specific locations such as the Cookery Room and Sports Hall. First Aid Boxes are checked on a half termly basis any deficiencies made good. First aid boxes will be taken when groups of pupils go out of school on organised trips or to participate in sporting events.

Supplies:

The Medical Lead is responsible for ordering new supplies for first aid use. All First Aiders are aware that equipment has a limited shelf life and could be subject to damage. Stock is to be checked and replenished as and when necessary. All first aid boxes are to be brought to the medical room at the end of the school year for stock control and replenishing.

First aid room:

The first aid room is located near the Leadership Office. This should be used for treatment of minor injuries, or for those feeling generally unwell (staff or students). If the bed is used it should be cleaned immediately after use with the materials provided, by the person dealing with the patient.

Hygiene and Infection Control:

Personal Protection:

When treating a patient the first aider should consider their own protection. Gloves and aprons are provided for use. Face shields are provided in each first aid box.

Clinical Waste:

All used plasters, bandages, gloves etc should be disposed of in a clinical waste bin, located in the First Aid room.

Child Protection:

When treating a child it is necessary to consider child protection issues that may arise. It is ideal for a pupil to be accompanied by a member of staff who knows them. It is necessary to assess the situation to ensure that both the pupil, First Aider and any other member of staff are protected.

APPENDIX 1

Ambulance Call Procedure

If an ambulance is required:

Contact reception to call emergency services, either on 2 or 2102 (internal telephone).

Inform reception of:

- who requires an ambulance
- where they are in school
- what the problem is
- stay on the line to answer any questions
- request additional support if needed

Reception will:

- contact emergency services
- receive and direct emergency services (fast response car plus ambulance)
- contact parents / carers to inform them
- inform class if parents / carers are coming to school or going straight to hospital
- print pupil information sheet for ambulance service
- inform a member of SLT
